

# *this i dream... for Our Vote*

Illustration by Bob Staake

"I dream that my passion for this nation will help light a flame in children's hearts to participate fully in our national life, especially by registering to vote when they are 18, and then exercising that astonishing privilege. I dream that they will use that cherished right as a torch to light their way...and ours." -Bruce Coville

"And yes, I know it can be frightening to express an opinion. Personally I'd rather eat a burnt rubber tire than tell the waitress she got my order wrong, but if we continue to be quiet, passive voters and wait for others to voice our concerns, we might end up feeling ashamed for a lot longer than the day after the election." -David LaRochelle
